

IAOO 2027 — 11th World Oral Cancer Congress

Rio de Janeiro, Brazil · May 5–8, 2027

A Global Crisis Demanding Global Action

452K

New Cases Annually

Oral cavity cancer diagnoses worldwide (GLOBOCAN 2024)

194K

Deaths Each Year

Oral cancer ranks 15th in global cancer mortality

63%

Rise in Incidence

Global incidence increase from 1990 to 2021

114%

Rise in Mortality

Deaths increased by 113.9% since 1990

107,887

Oropharyngeal Cancer Cases

New oropharyngeal cancer cases globally (GLOBOCAN 2024) — ranked 24th worldwide

70%

HPV-Attributable OPC

Of oropharyngeal cancers in high-income countries are attributable to HPV infection — a rising epidemic

Smoking, alcohol, and chewing tobacco drive the majority of these preventable deaths — accounting for 23.4%, 19.2%, and 18.7% of mortality respectively. HPV infection is also emerging as a critical driver of oropharyngeal cancer, responsible for up to 70% of cases in high-income countries. The world urgently needs coordinated scientific action.

WELCOME

Welcome to the 11th World Congress of the IAOO

The International Academy of Oral Oncology (IAOO) unites the world's leading clinicians, researchers, and public health leaders to advance the science and care of oral, oropharyngeal, and salivary gland cancers. After Liverpool 2025, the world convenes in Rio de Janeiro.

Pre-Congress: May 5, 2027

Hands-on courses and focused workshops for skill development

Main Congress: May 6–8, 2027

Full scientific programme, symposia, exhibitions, and networking

Rio de Janeiro — Where Science Meets Splendor

World-Class Venue

Windsor Barra Hotel & Convention Center — Rio's largest hotel event complex. 60 meeting rooms, 5,720-seat plenary capacity, beachfront Barra da Tijuca

Olympic Legacy City

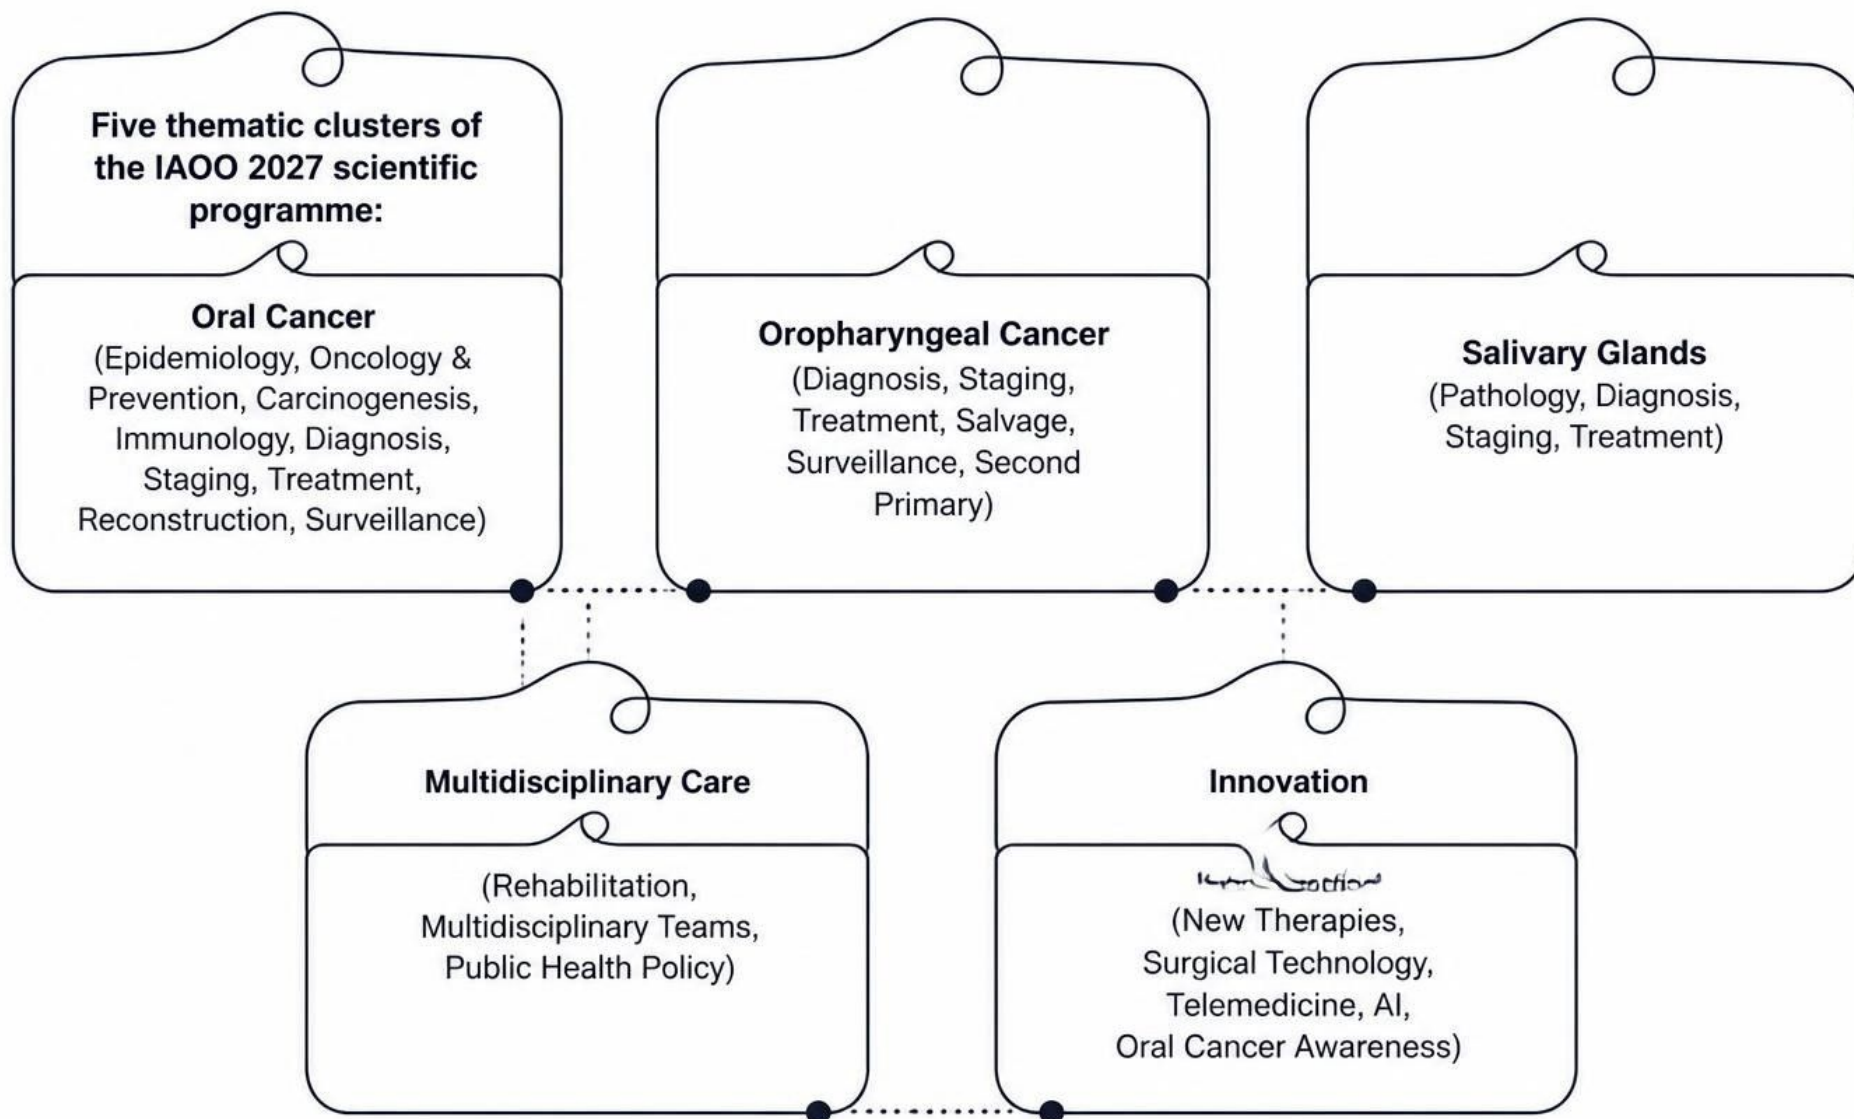

Home of the 2016 Olympic Games, with iconic landscapes, world-class gastronomy, and vibrant culture awaiting every delegate

Truly Global Reach

Direct international flights from 5 continents — Rio de Janeiro is a natural meeting point for the world's oral oncology community

Scientific Programme — Core Themes

SCIENCE

Cutting-Edge Science: From Bench to Bedside

IAOO 2027 brings together the most advanced research shaping the future of oral oncology — spanning discovery science, clinical translation, and global health innovation.

→ Immunology & Immunotherapy

Latest advances in checkpoint inhibitors and tumor microenvironment research for oral and oropharyngeal cancers

→ AI & Surgical Technology

Machine learning in early diagnosis, robotic surgery, and digital pathology transforming clinical practice

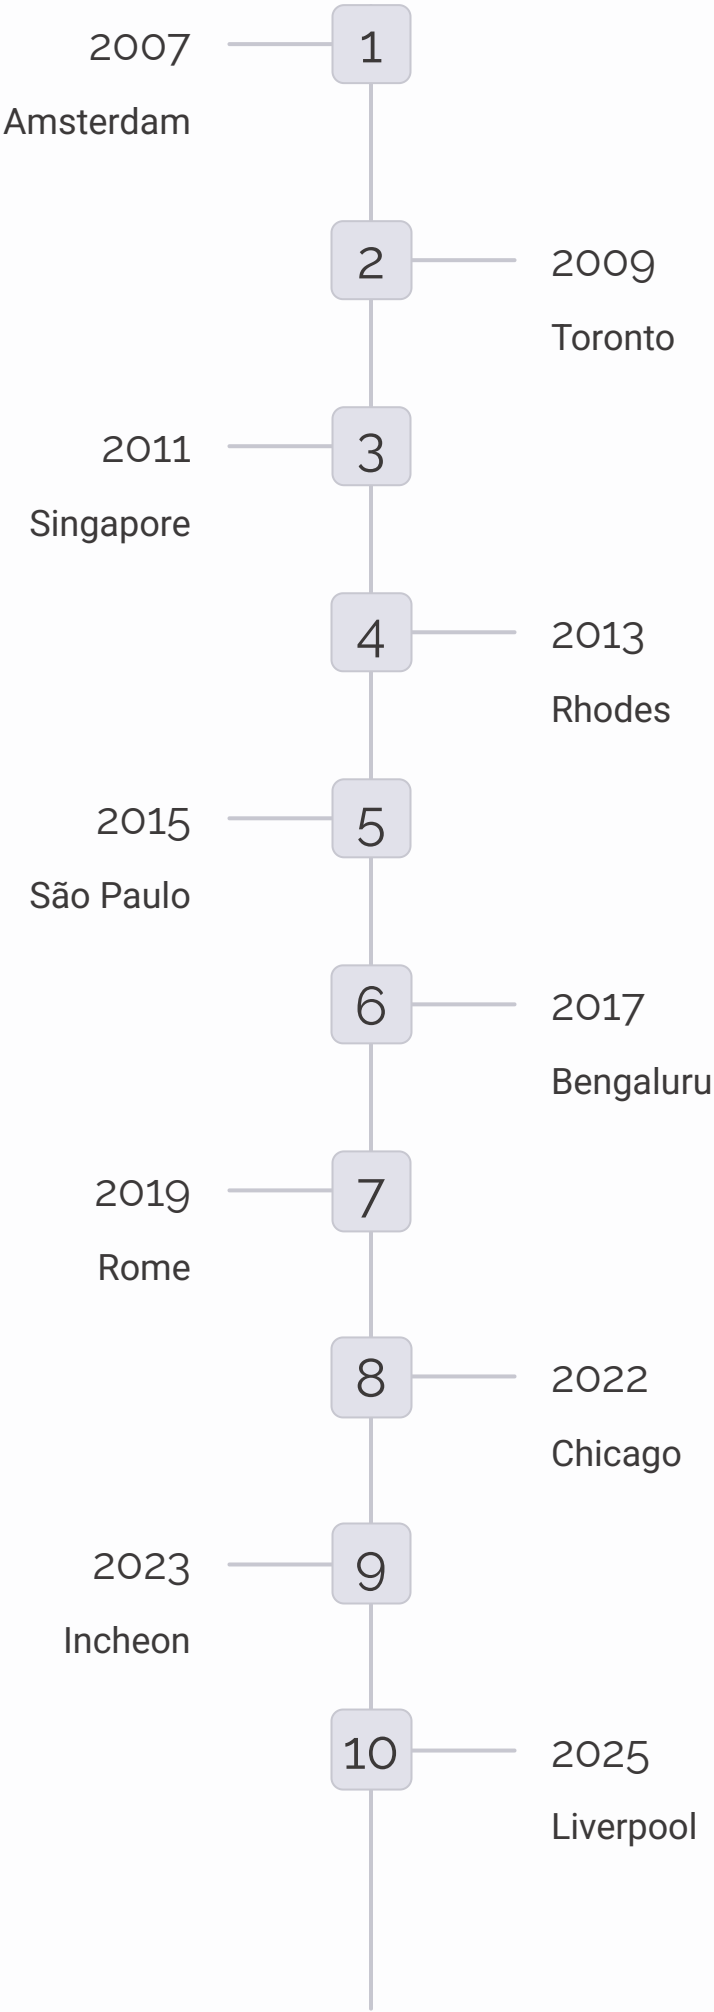

→ New Therapies

Targeted agents, personalized medicine, and the latest clinical trial updates from global research centres

A Legacy of World Congresses

For two decades, the IA00 World Congress has brought together oral oncology leaders across six continents. IA00 2027 marks the 11th edition – returning to Latin America for the first time since São Paulo 2015.

📅 **2027 → Rio de Janeiro** – The 11th edition returns to Latin America, building on the legacy of IA00 2015 São Paulo.

Who Should Attend

Surgeons & Oncologists

Oral & maxillofacial, head & neck, ENT,
plastic & reconstructive specialists

Radiation & Medical Oncologists

Cutting-edge protocols, clinical trials, and
treatment innovation

Pathologists, Radiologists & Dentists

Diagnosis, imaging, and early detection
advances

Researchers & Public Health Leaders

Epidemiology, policy, and prevention
science driving global impact

Allied Health Professionals

Rehabilitation, nursing, speech therapy,
and comprehensive patient care

MAY 5, 2027

Pre-Congress Day

Before the main scientific programme opens, May 5 is dedicated to intensive, practical skill-building for those who want to go deeper.

Limited seats available – early registration strongly recommended.

1 Hands-On Workshops

Focused masterclasses for surgical techniques and reconstruction

2 AI-Assisted Diagnosis

Practical sessions on machine learning tools and digital pathology workflows

3 Multidisciplinary Case Reviews

Collaborative case-based learning with international expert panels

Exhibition, Networking & Social Programme

International Exhibition

Explore the latest technologies, devices, and pharmaceuticals from leading companies in oral oncology – all under one roof

Social Events

Welcome reception, gala dinner, and curated cultural experiences showcasing the best of Rio de Janeiro

Global Networking

Three days of scientific sessions and social events connecting you with the world's oral oncology leaders

CALL FOR ABSTRACTS

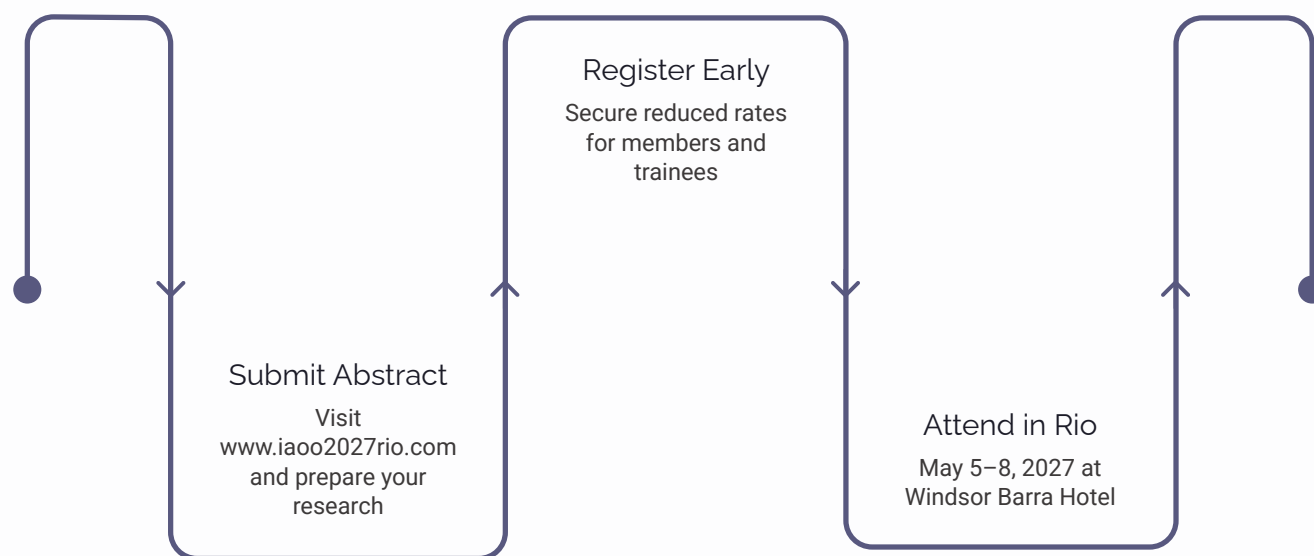

Abstract Submissions & Registration

The call for abstracts is now open. Share your science on the world stage — oral presentations, posters, and e-posters are all welcome across the congress's 25+ scientific themes.

- **Oral presentations, posters & e-posters** — all formats welcome
- **Topics** aligned with all 25+ scientific themes of the congress
- **Early-bird registration** available with reduced rates for IA00 members and trainees

Visit www.iaoo2027rio.com for full details, deadlines, and submission guidelines.
